

BDDEPOSITORS

BD5: Easy depositing straight
from the bowl

BD5: *Dosage facile directement
d'une cuve ou autre récipient*

Key features and benefits

- Depositing directly from a bowl or container
- Equipped with hose and handgun
- Built of stainless steel and other non-rusting materials
- High performance depositing with great accuracy
- Extremely suitable for the production of individual products (muffins, cupcakes, desserts, etc.)

The BD5 is easy to set up and operate. Simply place the container, bowl or pail underneath the machine and the BD5 is ready for depositing all kinds of (semi) liquid masses: Cake batter, muffin batter, sponge cake, mousses, custard and all kinds of fruit fillings such as apple, strawberry, cherries and apricots.

Extremely suitable for the production of individual products.

Principales caractéristiques et avantages

- Dosage directement d'une cuve ou autre récipient
- Équipée avec un tuyau et un pistolet
- Construite de acier inoxydable et autres matériaux non-oxydables
- Doseuse de haute-performance avec une grande précision
- Adaptée à la production de produits individuels (muffins, gateaux individuels, verrines, etc.)

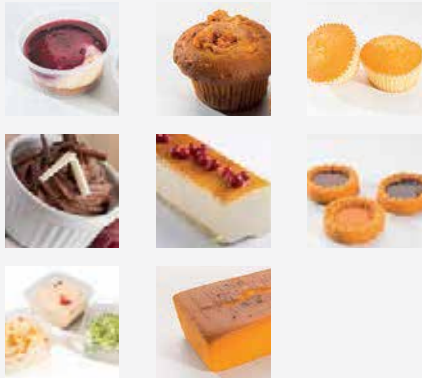

La BD5 est rapidement prête à l'emploi et facile à utiliser. Simplement placer la cuve ou autre récipient sous la machine et la BD5 est prête à doser.

Cake batter, muffin batter, sponge cake, mousses, custard and all kinds of fruit fillings such as apple, strawberry, cherries and apricots.

A Dosing volume
Volume de dosage

B Dosing speed
Vitesse de dosage

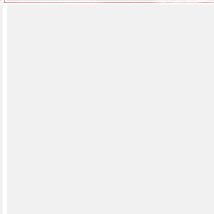

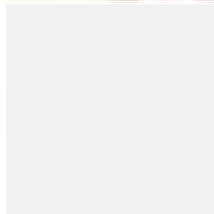

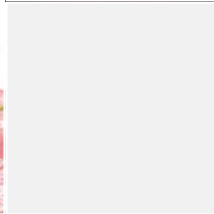

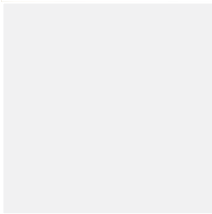

C Handgun with hose
Pistolet avec tuyau

D Pneumatic height setting
Réglage pneumatique de la hauteur

BENEFITS

- Compact
- High-performance
- Movable
- Easy to operate
- HACCP

- ▶ TRAINING & CLASSES
- ▶ PRODUCT TESTING
- ▶ EQUIPMENT LEASING & FINANCING

Through energy-saving measures, such as dimensioning of electrical power and – where possible – use of recyclable materials, BAKON commits to dealing responsibly with the environment.
