3 FEATURES IN 1 UNIT

# WITH AESTHETISM, QUALITY COOLING AND ERGONOMICS GUARANTEE.

**3<sup>IN</sup>1**  
SYSTEM

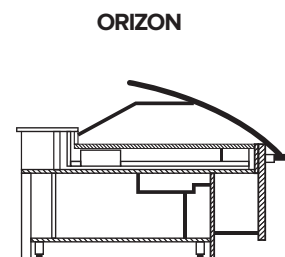

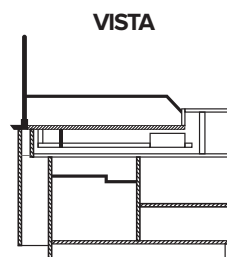

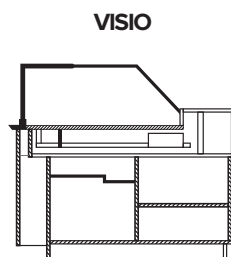

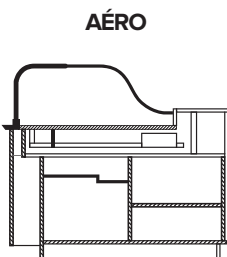

- 1** The 3 in 1 system provides a plain exposure area without having any visual impact disruption in terms of presentation
- 2** The use of PORCELANOSA SOLID SURFACE (70% mineral rock - 30% resin) provides stable cooling combining both direct and ventilated refrigeration
- 3** The material is light, nonporous, stain and water resistant, which also pushes back any inlaid molding and bacteria. This leads to a comfortable maintenance, which allows you to easily lift the tray and makes the cleaning a much simpler process. All stains can be effortlessly removed with a Scotch-Brite sponge ©

3 IN 1 SYSTEM
